## SUMMARY

Computer Science major with extensive programming expertise and a robust technical foundation. Unwavering motivation, adeptness in both independent and team-driven projects, a meticulous attention to detail as well as excellent analytical, written, and verbal communication skills.

## EDUCATION

**B.S Computer Science**, Arizona State University

May 2025

### Relevant Courses:

- Data Structures and Algorithms
- Operating Systems
- Physics I, II, Mechanics
- AI & Machine Learning I, II, III
- Calculus I, II, III
- Software Development

## SKILLS

**Programming Languages:** Python, C/C++, C#, Java, JavaScript, HTML/CSS

**Tools, Databases, and OS:** Unix/Linux, SQL, Maya 3D, Unreal Engine, AutoCAD, Adobe Creative Suite, TAIT Navigator

## PROFESSIONAL EXPERIENCE

**Show Programming Intern- Walt Disney Imagineering, Glendale, CA**

June 2025 – December 2025

- Worked closely with Show Programmers to operate and maintain advanced hardware and software tools for robotic and ride systems
- Assisted in creating, debugging, and organizing ride system profiles and data for future projects
- Streamlined the organization and security of show data, and contributed to the enhancement of show system tools
- Engaged in prototyping with the R&D team to explore innovative solutions to improve existing tools

June 2024 – December 2024

**Engineering Intern- Universal Studios, Hollywood, CA**

June 2023 – August 2023

- Conducted research and development to support ongoing projects and initiatives
- Examined technical issues, developed comprehensive process flow diagrams, and established an all-encompassing departmental process manual
- Provided technical assistance to Tech Services on audio-animatronics and implemented streamlined processes department-wide

**Engineering Intern- Hope Movement Creative, Tempe, AZ**

January 2023 – May 2023

- Proficiently utilized Python scripting language to engineer and optimize backend features for web applications, contributing to enhanced user experiences and more efficient processes
- Improved system reliability and robustness while meeting user interface expectations and performance standards
- Developed and maintained automated scripts for data processing and system monitoring, increasing operational efficiency

## EXTRACURRICULAR ACTIVITIES

**Student Volunteer- ACM SIGGRAPH, Los Angeles, CA**

August 2023

- Assisted contributors in demoing AI technologies and provided technical support for VR setups
- Supported conference management tasks, ensuring smooth operation and coordination of events

**Tour Guide- Advocates Program, Arizona State University, Tempe, AZ**

September 2022 – May 2024

- Conducted campus tours for prospective students and families from diverse regions
- Offered insights and responded to inquiries with a student-centric perspective
